# Najeel Sharif

## Cyber Security Analyst

Highly motivated BCA graduate seeking an entry-level position as a Cyber Security Analyst in the cybersecurity field. I aim to leverage my technical expertise, analytical abilities, and problem-solving skills to contribute to the security and growth of the organization.

## Experience

### Information Security Trainee

#### ESAF Small Finance Bank (April 2024–August 2024)

- Coordinated with security vendors and the IT department for the VAPT of web applications.
- Collaborated with IT to address and resolve vulnerabilities identified in VAPT reports, improving organizations security posture.
- Managed compliance tasks, including the submission of RBI-mandated quarterly reports through the Daksh portal and monthly reports, such as CSK (Cyber Swatch Kendra) report.

## Education

### Paramekkavu College of Arts and Science (University of Calicut)

Bachelor of Computer Application  
2020-2023

## Technical Skills

- Offensive Security
- Web Application Security
- Network Security
- Microsoft Excel
- Programming Languages:  
Python,HTML,JavaScript

## Project

### RENT A CUBE (Python)

- Developed Python-based workspace reservation system named Rent-a-Cube.
- Created user-friendly interface for reserving and using workspaces.
- Enabled companies to save time and money by charging for space only when necessary.
- Established flexible workspaces for essential in-person meetings, optimizing space usage and reducing costs.
- Ensured system scalability and accessibility for improved workspace booking.
